## Historic Montreal Ski Trails TRAIL GUIDE

## Historic Montreal Ski Trails

The Montreal Ski Trails are 11km of trails located in Montreal and Pence, WI. Trails are groomed for classic skiing with room for snowshoers, walkers and dogs. All abilities are welcome and catered to.

*The main trailhead can be accessed behind the Rose Wreath building, off HWY 77 in Montreal.*

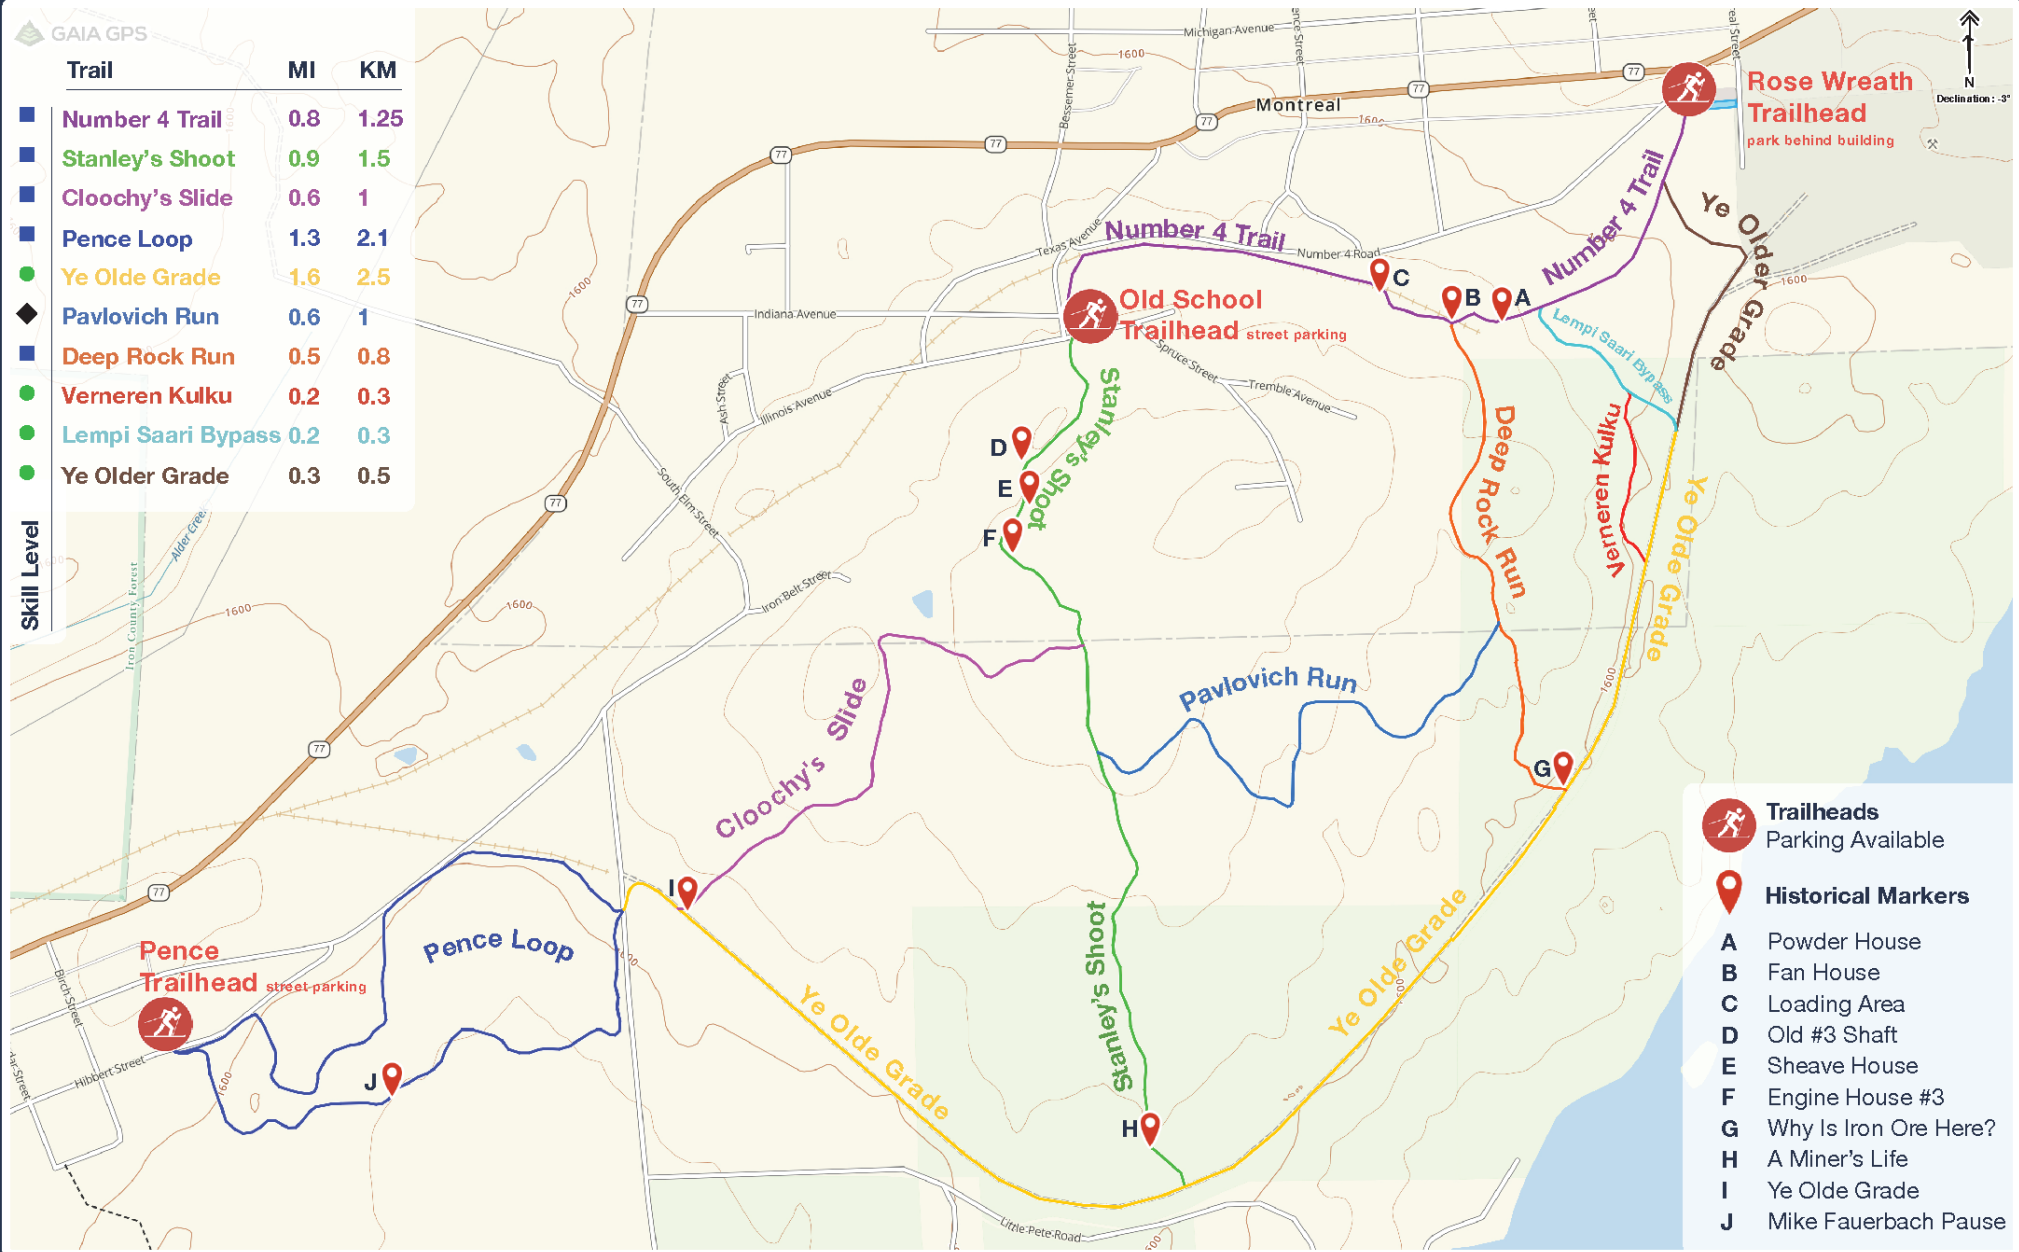

## Glide through time at an old mining site in Montreal, WI

You will be skiing through remnants of the old Montreal Mine. Over 5,000 feet deep, the mine produced high-grade Iron ore for a growing nation from 1900—1962. A series of interpretive signs highlight a few of the mining era artifacts that remain along the trail.

The Montreal Ski Trail lies in the middle of the Montreal River Water Gap. The trail receives hundreds of inches of lake effect snow each year. We still aren't sure how the miners put up with it; but we'll take it and enjoy it.

We hope you will too!
